DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose a display driver having, inter alia, a plurality of mirroring devices to which currents fed to a first current-input transistor and a second current-input transistor connected to a first reference current source and a second reference current source both supplying a reference current are distributed (claim 1). The remaining claims 2-11 are allowed by virtue of their dependencies on the independent claim. Hence, the examiner has allowed claims 1 through 11.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Friedman, Patent No. 6,147,665; Blankenship et al., Patent No. 6,646,481; Morita et al., Patent No. 6,509,854; Morita, Patent No. 6,750,840.

None of the above patents discloses currents fed to a first current-input transistor and a second current-input transistor connected to a first reference current source and a second reference current source both supplying a reference current being distributed to the plurality of mirroring devices.
